PATIO DOOR	PRODUCT INTRODUCTION	MAY 2017	0	T1705	01

As part of our policy of continuous product improvement we are pleased to announce the introduction of 2 new stock foil colours: Anthracite Grey Décor & Black Brown Décor. These will be foiled both sides of a Brown base. This now brings the Patio Door stock range in line with the Optima systems. In addition to the main Patio Door sections we have also introduced a range of colour matched accessories.

There is also a full range of ancillary profiles available to match. A complete list of available products can be found in the Product Guide, a summary of which can be found below. As part of this introduction we have withdrawn AG1253W & BK1253W as these are now replaced by brown base versions.

AVAILABILITY

The new parts will become available to order from 1st June 2017.

PRICE

The new parts will be priced on application.

Should you require any further information or clarification, please contact your Customer Services Advisor or the Technical Department.
